When a volunteer is signed up by a spouse, put an “SP” next to their name. These volunteers should be called within one week. If you wait 2 months, there is a chance they will back away from the commitment.

Duplicate this flier for every division. It is an excellent way of keeping track of how many volunteers you have recruited at all times. Each board member should determine ahead of time how many volunteers they need in each division based on the number of teams from last year.
